

Antique Airplane Association of Colorado Taylorcraft Restoration Workshops

Website: www.dekle.net/AAA/

Core team:

Project Manager---Bob Leyner 303-931-3867

Team members:

Jim Denly

Jack Greiner 303-709-6203

Carol Leyner

Mike Gugeler 720-890-0552

Georg Becker 303-652-2054

Last Workshop in mid August;

Too long ago to remember what was done. But the visit by the antique motorcycles was unforgettable!!

The intervening weeks included a trip to the Antique Airplane Association annual fly-in in Blakesburg Iowa for many of the AAA of Colorado Members that work at the workshops and a few of the younger participants.

The City of Longmont in cooperation with this group also held a city supported “Airport Expo” with excellent participation from our old and newer members and participants.—Thanks for the boost for General Aviation.

The internal parts for the engine for the Taylorcraft are out for evaluation, machining as required and certification (as being within serviceable limits –with the valued “FAA Yellow Tag”).

Next Workshop on Sept 19 :

The emphasis will be:

- 1. Fastening the Leading Edges on the first wing**
- 2. Work on the floorboards**
- 3. Work on brake system**
- 4. Work on cables and wiring for the wings**
